

Appl. No. 10/622,048
Amtd. Dated May 6, 2005
Reply to Office Action of February 8, 2005

Docket No. CM05154H
Customer No. 22917

REMARKS/ARGUMENTS

Claims 1-19 remain in the application; however Claims 9-11 and 18 have been withdrawn. In addition, Claims 1, 5, 13, and 15 have been amended.

Specifically, each independent claim is amended to add a limitation to sending/transmitting "a disassociation message to the mobile station, wherein the disassociation message is addressed as if it originated from the first access point." Support for the new limitation is found in Applicant's specification in the last paragraph of page 3 and in FIGS. 2 and 4 as element 206.

None of the prior art references teaches or suggests, either alone or in combination, the new limitation. Since the added limitation is not taught or suggested by the cited references, the rejection under 35 USC § 103(a) should be withdrawn. Thus, applicants believe that the subject application, as amended, is in condition for allowance. Such action is earnestly solicited by the Applicants.
